Network Clipboard: clipboard viewer, clipboard utilities, clipboard manager, network share and collaborate tool, Windows clipboard, clipboard tools.

Use network clipboard to quick and easy transfer of clipboard content, clipboard viewer, image saver (save image on clipboard). No matter what's your business or occupation, even if you're a modern Home User with a small network, share text, spreadsheet content (Excel, Lotus, etc.), documents (Word, Word pad, Lotus, etc.), image, files, data, and more, with just one click, instantly ! **The best and most used network clipboard software !**

 **Network Clipboard (NC)** is not just a time saver when you need to send information quick and easy. Its sole purpose: to make it easier to share clipboard content between two or more users, Network Clipboard just makes it simpler.

Who Uses Network Clipboard & Viewer?

Great tool for SOHO (Small Office / Home Office), Medium and Large networks. Simply use network clipboard to instantly copy your spreadsheet content (Excel, Lotus, etc.), documents (Word, Word pad, Lotus, Wordperfect, etc.), text, image, URL's (internet addresses), email addresses, database records, etc., straight to your computer using Easy Bar (or menu, as your wish), using high security 128bit encryption (yes, the same security Visa and Mastercard uses for online transactions) to avoid hackers intrusions to your valuable information. With much more options, add-ons, performance and security than any free or commercial tool...even is free to try for 30 days! [\(30-Days Money Back Guarantee\)](#). You may configure network clipboard to ask for your authorization before send your clipboard content to a remote user, define favorite users and computers on your network (usually secure colleagues), transfer your clipboard as compressed information to save your network bandwidth (useful on large networks, compression level is user configurable too !), with extra add-ons and tools already included (like copy text to clipboard in additive mode).

Download
<ul style="list-style-type: none"> • Easy as 1-2-3: Copy, Paste, Collaborate. • Clipboard content as original (as is) • Image preview and saver • Clean, elegant skinned interface with multiple skins included • Seamless integration including drag & drop support, system tray ready, system context menus • Multi-threaded server • & much more!
Network Clipboard (2.14 MB .exe)
Requirements: Windows 95, 98, 98SE, Me, NT4, 2000, XP, 2003 or higher
Buy Now Only \$24.95 (save yourself time for less!)
Get rid of discussions like: "Hey, I will save it for you on c:\documents\files\private" "Is it already there?" "Wait a moment" "I'm still moving to the folder" "I don't see it. Where have you put it?" "On c:\documents\files\private" "Ouch, now I see it. Thanks"

Information at your fingertips

Network Clipboard will be ready for action in System Tray, to get clipboard content from a remote computer, just click the tray icon  and choose Get from Computers, Get from Favorites; or simply move your mouse to the right of your monitor (fully) to get Easy Bar and click on the computer name you want to get clipboard from. The entire process can be done in background while Network Clipboard is running in system tray.

How does it work?

Network Clipboard & Viewer uses its own protocol to send and receive exact clipboard content. Network Clipboard & Viewer is a perfect extension for Windows Clipboard, no matter if you are in a networked environment or not. Uses a high security 128bit encryption and compression to save your disk space.

What's with the demo?

Network Clipboard & Viewer is a full 30 day unrestricted version. This means Network Clipboard & Viewer works in a fully functional manner for 30 days, at which time the collaborate functionality will no longer be enabled until a license is purchased and your copy registered.

The Future looks bright

Several new releases of Network Clipboard & Viewer are launched per year. We read each and every email and posts in our [forum](#) and take your suggestions to heart when designing so please [contact us](#) & let us know what you think NC needs to make it that much better.

We think Network Clipboard & Viewer is a useful little utility and are proud to be able to share it with the world. Feel free to [download](#) it and give it a try, we hope you'll like it and stick around for the future, it's only going to get better!
